Brief description

During testing, the method of 11 test cases was used, which checks the main functionality of the online store

<https://www.citrus.ua/uk/>

The purpose of testing is to check the operation of all the mandatory functions of the site related to the search and purchase of products. Testing was performed on **Google Chrome version 87.0.4280.141**.

Remark: actually all test cases were passed successfully. But because this is a training project, were considered some of the possible errors (imagined by me) that may occur (and I'm sure they occur) when checking such site functionality.

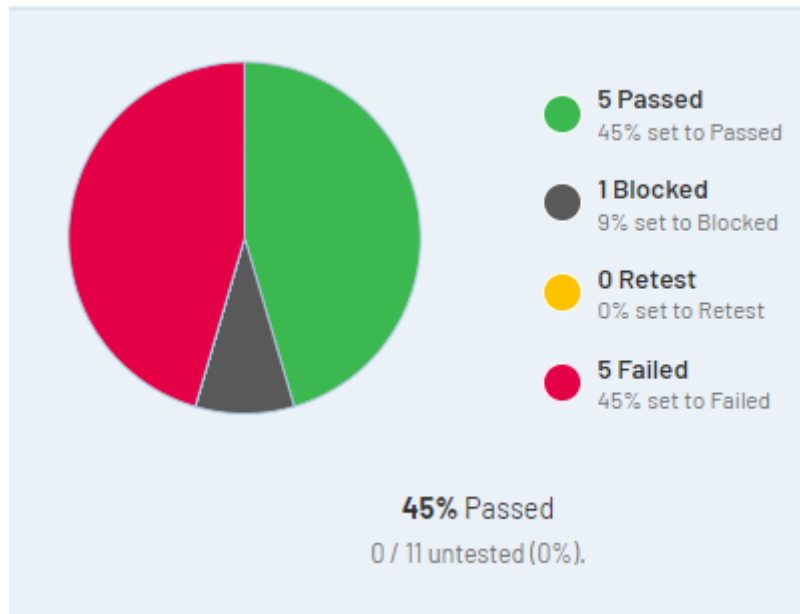

Information about testing

Table 1. Test cases passed during site testing

No of Test case	Check name	Result	Remarks and recommendation
Search			
1	Verifying the ability of searching for the product by name in the Ukrainian	Passed	
2	Verifying the ability of searching for the product by name in English	Failed	A blank page is opened after valid search request No of Bug Report – C1-6
3	Verifying the ability to search for products in the catalog	Blocked	The catalog icon doesn't shown No of Bug Report – C1-7
4	Verifying the ability to search for products using filters	Passed	
Cart			
5	Adding the product to the cart	Failed	The cart doesn't open after clicking on the "Buy" button on the product page No of Bug Report – C1-8

6	Deleting the product in the cart	Passed	
Registration and Authorization			
7.1	Registration on the site	Failed	The "Name" field doesn't become active for entering data on the new user registration form № of Bug Report – C1-9
7.2	Registration on the site	Failed	Registration of a new user is possible without filling in the required field "Phone number" on the registration form № of Bug Report – C1-10
8	Authorization on the site	Failed	The "Next" button is overlapped by the "Phone number" field on the authorization form № of Bug Report – C1-11
Ordering			
9	Entering personal data	Failed	The "Name and Surname" field allows to enter invalid data on the form of filling in personal data when ordering products № of Bug Report – C1-12
10	Data entry to receive the products	Passed	
11	Choosing a payment method	Passed	

Figure 1. Diagram of test cases execution results

Conclusions

In the process of testing 11 functional smoke tests were performed, and 7 defects were detected (for which bug reports were created). Used test cases and created bug reports can be viewed by the link

https://drive.google.com/drive/u/1/folders/19IX_Nq6qM9aKlkvnJ7XBfpOGSnkZYVMO .

Appendix (list of defects)

Table 2. Bugs found during site testing

Bug ID	Test case ID	Brief description	State	Criticality
C1-6	2	A blank page is opened after valid search request	Detected	High
C1-7	3	The catalog icon doesn't shown	Detected	High
C1-8	5	The cart doesn't open after clicking on the "Buy" button on the product page	Detected	Highest
C1-9	7.1	The "Name" field doesn't become active for entering data on the new user registration form	Detected	Medium
C1-10	7.2	Registration of a new user is possible without filling in the required field "Phone number" on the registration form	Detected	Highest
C1-11	8	The "Next" button is overlapped by the "Phone number" field on the authorization form	Detected	Medium
C1-12	9	The "Name and Surname" field allows to enter invalid data on the form of filling in personal data when ordering products	Detected	Highest
